Liebert Power distribution RPC Temperature / Humidity Sensors
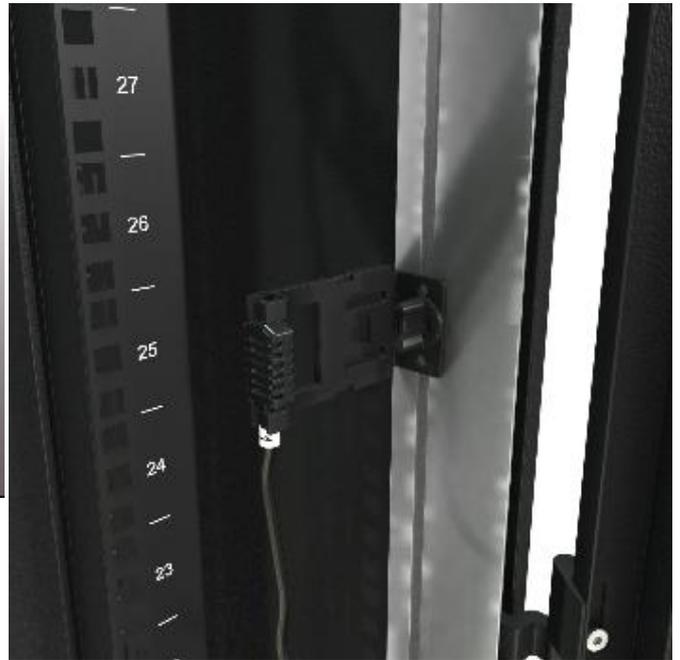

Liebert		Order number
RPC Temperature / Humidity Sensors		
Version	Cable length [m]	
Temperature probe, single	3,66	**SN-Z01**
Temperature probe, triple	5,18	**SN-Z02**
Temperature probe, double and combination sensor (humidity and temperature)	5,18	**SN-Z03**

- Optional temperature / humidity sensors are available to assist in monitoring conditions in the rack.
- The sensors are designed for installation in a Knurr Miracel without tools.
- They connect to the Liebert RPC, which makes readings available to Liebert MPX and MPH monitoring methods.

Supply schedule
1 RPC temperature / humidity sensor
Mounting material

How supplied
- flat-packed kit

Please note
The RPC temperature / humidity sensors are not required for MPX or MPH operation, but require the Liebert RPC (Rack PDU Card).
