1. Common Challenges

IT teams with limited resources face challenges when supporting distributed IT environments such as network closets and server rooms:

Remote Visibility for Multiple Sites

Unplanned Downtime

Power Outages

Equipment Overheating

“ The infrastructure needed to maintain business continuity

Vertiv™ SmartCloset™

Purpose-built rack solution for Network Closets and Distributed IT.

Fast

The SmartCloset™ is stocked to enable rapid deployment.

Seamless

Pre-validated by Vertiv to ensure easy deployment.

Scalable

Standardized components provide a scalable solution.

Secure IT Rack

Vertiv™ VR Racks provide a secure, organized, and efficient place to manage critical IT infrastructure and enable edge locations to meet power and space requirements.

Emergency backup power

Vertiv™ Liebert® PSI5 and Vertiv™ Liebert® GXT5 UPS provide market-leading efficiency in line-interactive and online double-conversion topologies for power protection and voltage regulation. Also available with Lithium-ion UPS technology.

Remote Communications

Networking cards enable integration of the UPS into monitoring systems, allowing users to manage system status and alarms 24/7 anywhere in the world.

Environmental Monitoring

Help protect your critical IT infrastructure by strategically monitoring the temperature, humidity, and dew point within the network closet environment. Sensors are available only for some models.

Integrated power distribution

Vertiv™ Geist™ rPDUs give unmatched reliability, ultimate versatility, and piece of mind that the last link in your power chain is secure. Rack PDU's are available only for select models.

Your investment protected with a system level warranty from Vertiv

We are here to support you with service solutions for your critical infrastructure and to ensure that your vital applications always work. The Vertiv SmartCloset™ has a full suite of service offerings to help protect your investment and your business.

“ Why piece together products by yourself when you can find a readily available solution that has already been curated by industry experts? ”

2. Industry Leading Portfolio of Edge Infrastructure

Vertiv offers an industry-leading portfolio of physical infrastructure, services, and monitoring software.

Vertiv™ LIFE™ Remote Diagnostic Services for Rapid Response

Uptime assurance

- Continuous monitoring for early detection of trends and operating anomalies.
- Analysis and interpretation of alarm and status messages.

Rapid incident response

- Automatic transmission of data for analysis.
- Concurrent diagnosis and dispatch of engineer to site.
- Shipment of parts for corrective maintenance.

Increased insight and ease of management

- Notification of operating conditions that may impact system health.
- Periodic trend and analysis reports.
- Integration of remote and on-site services to ensure business continuity.

Power Assurance Package

Vertiv's exclusive Power Assurance Package offers lifecycle power management for critical single-phase UPS systems, eliminating the concerns surrounding all aspects of UPS support.

- Available with Vertiv™ Liebert® APS, Vertiv™ Liebert® PSI and Vertiv™ Liebert® GXT UPS products, from 500VA – 10kVA.
- Installation and startup services.
- Five-year, hassle-free protection plan.
- Safe disposal of UPS/battery.
- 24x7 on-site emergency response.
- Parts and labor coverage.

Power Continuity Services

Complete line of battery and UPS replacement services for the Vertiv™ Liebert® GXT and Vertiv™ Liebert® PSI systems, commonly used at the edge of an IT network in small or remote sites. Three levels of services that help ensure continuous power for your vital applications:

- UPS restoration services provides a replacement UPS battery pack, shipped from Vertiv, ready for your IT resources to install.
- UPS refresh includes a replacement battery pack, installation and startup by our factory-authorized technicians, a wellness check, spent battery removal and disposal, optional two-year service contract, and optional remote services.
- UPS replacement gives you a new UPS with installation, startup, legacy equipment removal and disposal, an optional five-year protection plan, and optional remote services.
