

Vertiv™ Geist™ Environmental Sensors

Overview

Environmental factors like heat, humidity and moisture pose a severe threat to mission-critical infrastructure. These dangers can be minimized by incorporating a network of environmental sensors to collect data and alert users of potential threats. Adding optional sensors to a Vertiv™ Geist™ Environmental Monitor or Rack Power Distribution Unit (rPDU) allows users to observe conditions from a secure Web interface and receive alerts via Email, SNMP, or Email-to-SMS.

Benefits

- View real time sensor data from a secure web interface.
- Receive alerts when a threshold is breached to ensure out-of-range conditions are addressed before resulting in downtime.
- Strategically monitor data center, server room and network closet environments to protect critical infrastructure.
- Simple installation and configuration on Vertiv Geist Environmental Monitors and rPDUs.

SPS-4

Four way splitter for RJ12 external environmental sensors.

Part Number: SPS-4

Category: Accessories

Sub-Category: Splitter

Specifications and Options:

Accessory Type	RJ12 - 4 Way Splitter
Connection Interface	(4) RJ12 In, RJ11 Out
Cable Length	10ft / 3.048m
