

VERTIV™ SMARTCABINET™ FOR BRANCH BANKING

Intelligent, integrated infrastructure in a rack

DISCONTINUED

BENEFITS

- **Improve Productivity and Agility.** The SmartCabinet™ solution enables IT managers to standardize processes and centrally manage all services and infrastructure remotely while still providing low latency computing for tellers, ATMs and other branch-specific applications.
- **Reduce Life Cycle Cost.** With remote IT management – and our efficient and effective deployment, maintenance and analytical services – the SmartCabinet solution can significantly reduce your total cost of ownership compared with establishing unique solutions and sending IT personnel to each branch.
- **Increase Security.** SmartCabinet decreases security risks with rights-based access and control, optional on-site intrusion prevention and detection and video surveillance.
- **Reduce Downtime Risks.** Thanks to secure remote IT management, online uninterruptible power supply and next-day on-site emergency services, SmartCabinet can significantly reduce the risk, frequency and length of downtime.
- **Deploy Rapidly.** Standardization, factory integration and our industry-leading deployment services enable SmartCabinet to be quickly installed and running across multiple branches.

Provide Simple, Reliable, Affordable and Secure IT Across All Your Branch Locations

Implementing and maintaining IT systems across multiple branch locations can be expensive and complicated. And if not done correctly, it can lead to inconsistent security and reliability as well as unnecessary costs of redundant IT support and in-person service calls.

By using the SmartCabinet™ solution from Vertiv™, you can quickly establish a standardized rack system that simplifies deployment, integrates essential infrastructure, maximizes uptime and protects assets.

VERTIV™ SMARTCABINET™ FOR BRANCH BANKING

Intelligent, integrated infrastructure in a rack

Is SmartCabinet™ right for your bank branches?

ARE YOU CONCERNED ABOUT:

Experiencing inefficiencies because you don't have a consistent IT solution across your branch locations?

The total cost of ownership of your IT infrastructure solutions?

Unplanned downtime?

Lack of physical security of your IT systems at branch locations?

Decreased control and efficiencies by not having remote access to branch IT?

Inconsistent equipment, management and processes across your branch locations?

CONSIDER THAT SMARTCABINET™ ENABLES YOU TO:

Standardize IT equipment and protocols, control hardware costs and reduce IT travel time.

Utilize consistent equipment that can be managed remotely in real time – nearly eliminating in-person service calls.

Protect IT assets from unexpected power events.

Experience greater security through rights-based access and control, optional on-site intrusion prevention and detection and video surveillance.

Control most IT functions – including monitoring and updating – from a central IT center.

Quickly deploy standard IT configurations across all branch locations.

Call your Vertiv™ representative today to learn how the Vertiv SmartCabinet™ solution can help you simplify branch management, reduce costs, increase productivity and improve security.
