

## Overview

Environmental factors like heat, humidity and moisture pose a severe threat to mission-critical infrastructure. These dangers can be minimized by incorporating a network of environmental sensors to collect data and alert users of potential threats. Adding optional sensors to a Vertiv™ Geist™ Environmental Monitor or Rack Power Distribution Unit (rPDU) allows users to observe conditions from a secure Web interface and receive alerts via Email, SNMP, or Email-to-SMS.

### Benefits

- View real time sensor data from a secure web interface.
- Receive alerts when a threshold is breached to ensure out-of-range conditions are addressed before resulting in downtime.
- Strategically monitor data center, server room and network closet environments to protect critical infrastructure.
- Simple installation and configuration on Vertiv Geist Environmental Monitors and rPDUs.

### SRT-20

Temperature sensor used to monitor temperature in critical environments. Includes a 20ft / 6.1m cable.

**Part Number:** SRT-20

**Category:** Accessories

**Sub-Category:** External Sensor

### Specifications and Options:

<b>Remote Sensor Type</b>	Temperature
<b>Connection Interface</b>	RJ12
<b>Temperature Measurement Range</b>	-67°F to 257°F / -55°C to 125°C
<b>Temperature Measurement Accuracy</b>	±0.5°C / -10°C to 85°C
<b>Sensor Length</b>	1.25in / 31.75mm
<b>Cable Length</b>	20ft / 6.1m
<b>Ingress Protection Rating</b>	IP67 Waterproof
<b>Made in the USA</b>	Yes
<b>Product Warranty</b>	5-year limited warranty if registered within 120 days of purchase, otherwise warranty defaults to 3 years
<b>Certification/ Agency Approvals</b>	RoHS Compliant
