

Connected Campus

Teachers, students and administrators depend on the technology every day. And technology depends on critical infrastructure.

E-Rate: Take Advantage of this Federal Assistance Program

E-rate (also known as the Schools and Library Program of the Universal Service Fund) is a budget extender for Public K-12 schools and districts and nonprofit schools that need affordable access to telecommunications and Internet services. Through the federally funded E-rate program, schools are eligible to receive discounts between 20-85% on Vertiv UPS, power distribution, and racks/enclosures.

Check with your local Vertiv office to see if your solution qualifies for the E-rate program.

Data center and distributed edge solutions to meet your unique needs.

Did you know Uninterrupted Power Supplies (UPS), Power Distribution, and Racks/Enclosures can be purchased under **E-Rate and ESSER funding?** When you partner with Trace 3 and Vertiv, you get longer runtimes and protection with Vertiv's newest Lithium-Ion products, a giant leap forward in UPS technology with longer runtime and protection of your IT equipment.

Whether you want to rely on ESSER funding or E-Rate, Trace3 can help ensure your critical IT applications have the highest level of power protection through our partnership with Vertiv.

How does Lithium Ion save money and the environment while being a reliable power back up for your schools?

Lowest TCO

Smaller & Lighter

Longer Life

Longer Runtime

Vertiv™ Liebert® GXT5 Lithium-Ion UPS

Vertiv™ Liebert® PSI5 Lithium-Ion UPS

What Are ESSER Funds?

The Elementary and Secondary School Emergency Relief (ESSER) Fund is a federal program, approved by the Department of Education as part of a larger COVID-19 aid plan. From keeping schools open to investing in infrastructure, this fund provides emergency financial assistance for a variety of necessary projects to school districts across the country. The program is available to K-12 institutions until September 30, 2024.

E-Rate: Take Advantage of this Federal Assistance Program

E-Rate (also known as the Schools and Library Program of the Universal Service Fund) is a budget extender for Public K-12 schools and districts and nonprofit schools that need affordable access to telecommunications and

Internet services. Check with your local Vertiv office to see if your solution qualifies for the E-rate program administered by the Universal Service Administrative Company. Through the federally funded E-rate program, schools are eligible to receive discounts on Vertiv™ UPS, power distribution, and racks/enclosures.

Is it time to trade in and trade up?

To determine if your data center is a prime candidate for a new UPS system, consider these initial questions:

- Is your rack-mounted UPS fleet more than five years old?
- Are you planning on expanding, reducing, or replacing your rackmount UPS fleet?
- Is the operating efficiency of older systems causing your utility bills to be a drag on your budget?
- Are battery modules and cabinets becoming less available?
- Are you frequently servicing your old units?
- Do you require a certificate of recycling or destruction based on your state or local laws?

If you answered “yes” to one or more of these questions, then there’s no time like the present to take advantage of powerful new UPS technologies. Contact your Vertiv Partner to start the process and find out how much you can save with Vertiv™ Trade-In Program discounts.

Select a New Vertiv™ UPS and Save

Vertiv™ Liebert® GXT On-Line UPS

The Vertiv™ Liebert® GXT UPS is an online double conversion system offering premium power outage protection and continuous power conditioning in a flexible rack/tower design.

This single-phase UPS family provides superior protection and remote management capability, making it ideally suited to protect critical infrastructure in both centralized and edge network applications. Additionally, the Liebert® GXT5 UPS offers a scalable battery runtime solution through matching external battery cabinets.

Vertiv™ Liebert® PSI UPS

Vertiv™ Liebert® PSI is a compact, line-interactive UPS system designed especially for IT applications such as network closets and small data centers. It supports advanced pure sine wave output on battery to safeguard critical IT equipment and electronics.

It provides reliable power protection for servers, critical nodes, network workstations, large network peripherals, network routers, bridges, and other electronic equipment. The Liebert® PSI5 may be ordered with either lead acid or lithium ion batteries.

Vertiv™ Liebert® APS UPS

The Vertiv™ Liebert® APS is an online double conversion, modular power solution for 5-20kVA N+1 applications. It provides mission-critical availability and reduction of costs costs while maintaining future flexibility.

This scalable single-phase UPS is ideal for room or row-based applications. Each system includes hot-swappable FlexPower™ assemblies and battery modules that allow for rapid deployment of capacity and runtime upgrades.

Vertiv Makes Upgrading Easy for You and Your Classroom

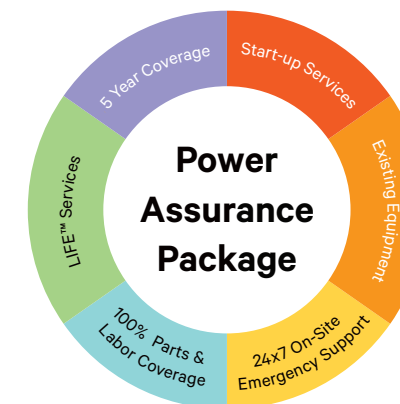

Vertiv Trade-In Program

With the Vertiv Trade-In program, you can save money on the cost of state-of-the-art Vertiv™ Liebert® GXT, Vertiv™ Liebert® PSI, or Vertiv™ Liebert® APS UPS systems while eliminating the hassle and cost involved with recycling your old units. The Vertiv Trade-In program makes it easy to upgrade your UPS units and give your critical facility the protection it demands.

Benefits of Vertiv Trade In Program

Power Assurance Package

Removal and Disposal of Existing Equipment With this Power Assurance Package option, technicians will remove and dispose of an old UPS unit of comparable make or model while following all regulatory requirements. This task is handled when visiting to install and startup the new UPS system.

Power Assurance Package for Liebert® APS, Liebert® GXT5 or Liebert® PSI5 UPS
